Clifford the Big Red Dog visits NV Elementary and Chantry Elementary

Kindergarten Fall Day!

We had a great time at the Glenwood Lake Park! We got to go on a Hayrack Ride!! On our ride, we saw a LOT of trees that were changing colors! It was neat!

We learned a lot about all of the different uses for Corn! One of our favorites was POPCORN! We got to use all

We learned so much about Pumpkins and Gourds! We even got to see if they were able to FLOAT or SINK! We weighed the pumpkins too! Some were really heavy!

Mills County Conservationists Visit NV 3rd Grade by Ms. Nielsen

The Mills County Conservationists came and visited the 3rd grade classroom at NV. The 3rd graders have recently been talking about animals and their habitats in science. The conservationists brought along a salamander, two turtles, and a snake. These animals are all found in the midwest region. The students learned about the habitats in our area and the types of animals that live in them. Another key point was learning how the animals use their habitats for protection against other animals and how they survive.

Governor Terry Branstad Proclaims HOSA Week

On Thursday, November 1, Governor Terry Branstad signed a proclamation declaring November 4-10 as HOSA Week in the State of Iowa. Five (5) state officers were able to attend the proclamation signing with the governor.

HOSA is a national student organization endorsed by the U.S. Department of Education and the Health Science Education Division of ACTE. HOSA's two-fold mission is to promote career opportunities in the health care industry and to enhance the delivery of quality health care to all people. HOSA's goal is to encourage all health occupations instructors and students to join and be actively involved in the HSE-HOSA Partnership.

HOSA provides a unique program of leadership development, motivation, and recognition exclusively for secondary, postsecondary, adult, and collegiate students enrolled in HSE programs. HOSA is 100% health care!

Iowa HOSA's state officers include:

- Samantha Johnson, President – Sioux City
- Matilde Arreguin, Central Region Vice President – Sioux City
- Lucy Lohman, Eastern Region Vice President and Webmaster – Maquoketa
- Jenny Joaquin, Western Region Vice President – Sioux City
- Victoria Harte-Maxwell , Secretary – Council Bluffs
- Kelsey Croghan, Reporter – Malvern
- Brittany Karr, Parliamentarian – Maquoketa

The Mouse That Roared

Congratulations on all the hard work the cast, crew and directors put in on their play production of "The Mouse That Roared". The play produced lots of chuckles throughout the audience. The new speaker system makes a big difference with sound.

Take time to support the arts in the East Mills Community School District - your students will appreciate it!

Flakes, Flakes and more Flakes!!

Where's Santa? Where are the Elves and Reindeer? Not in the Winter Program at Chantry this year!

But there will be lots and lots of snowflakes!

On Thursday, Dec. 6 at 7:00 pm at the HS, Chantry elementary students will present two musicals about snowflakes. Kindergarten and first graders will be bringing you "Snoozy Snowflake" starring Mallory Lang as Snoozy and Naturelle Hoose as Ms. Frost. Snoozy is tired of looking like all of the other snowflakes - until some very smart children explain to her that no two snowflakes are alike!

"Flakes" will be presented by the second, third and fourth grade. All of the third and fourth grade girls are snowflakes (and each gets to create their own snowflake costume!) and the boys are SNIRTS. What are Snirts? We think you should come to our program and find out!

Keyboarding and more.....

Remember when teachers covered your keyboard so that you could memorize letter position on keyboards? They are back, but in a much more 21st century way! Students at Chantry are trying out Keyboarding Online - a program that keeps track of their speeds and words per minute. The interesting part is that once the students start typing - the letters they type are covered up. If they happen to look down at the keyboard - they only have 2 seconds before the screen blanks and they have to start over again! They eventually learn that keeping a steady pace, and actually remembering the keys will work! We have a few students that still insist on hunting and pecking but it will catch up with them. The students also have a goal to reach before the program will let them move on. It's challenging - but in a good way!
